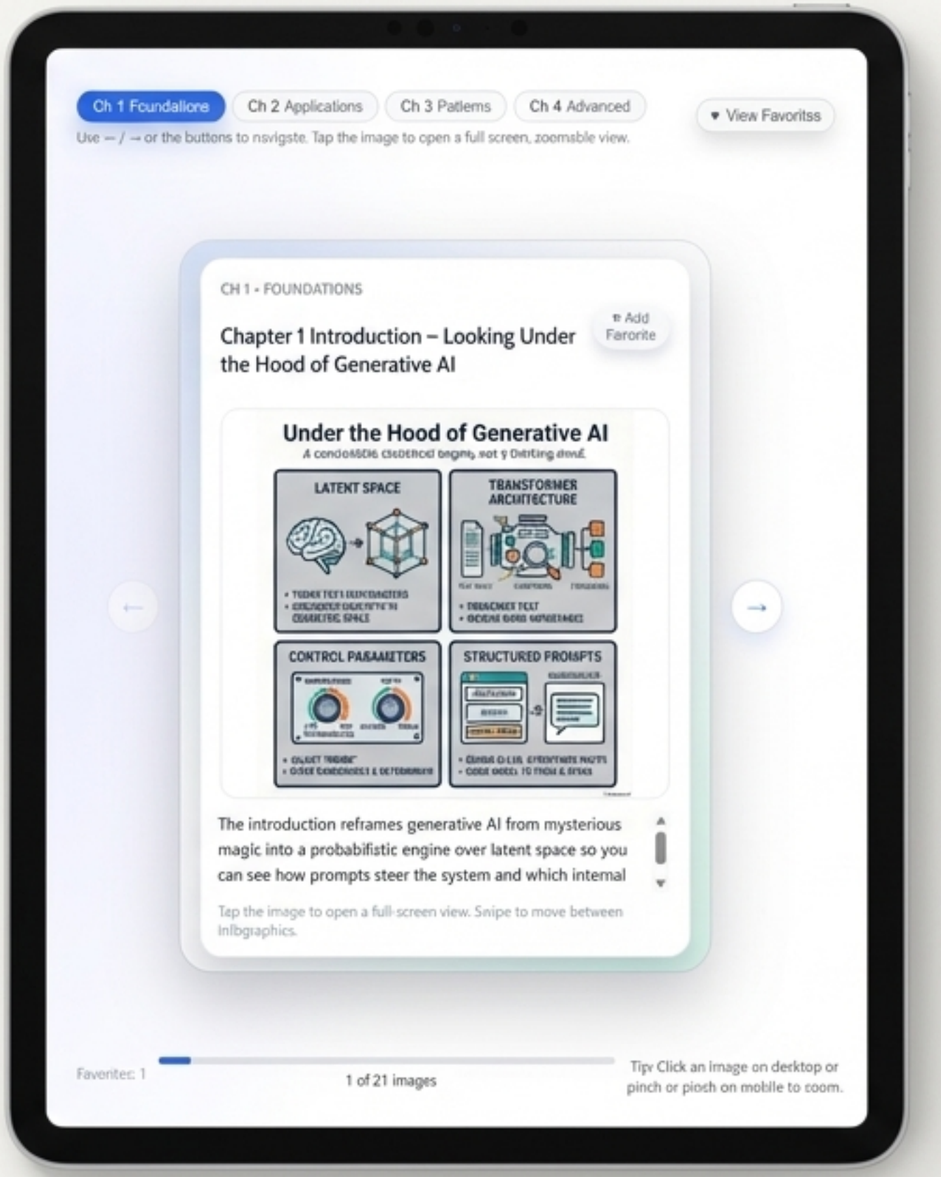
See AI Concepts Clearly.

A visual guide to the key diagrams from the *Generative AI Professional Prompt Engineering Guide*.

Instead of just reading, move through curated visuals to deepen your understanding of of complex ideas like latent space, temperature, and system messages.



NotebookLM

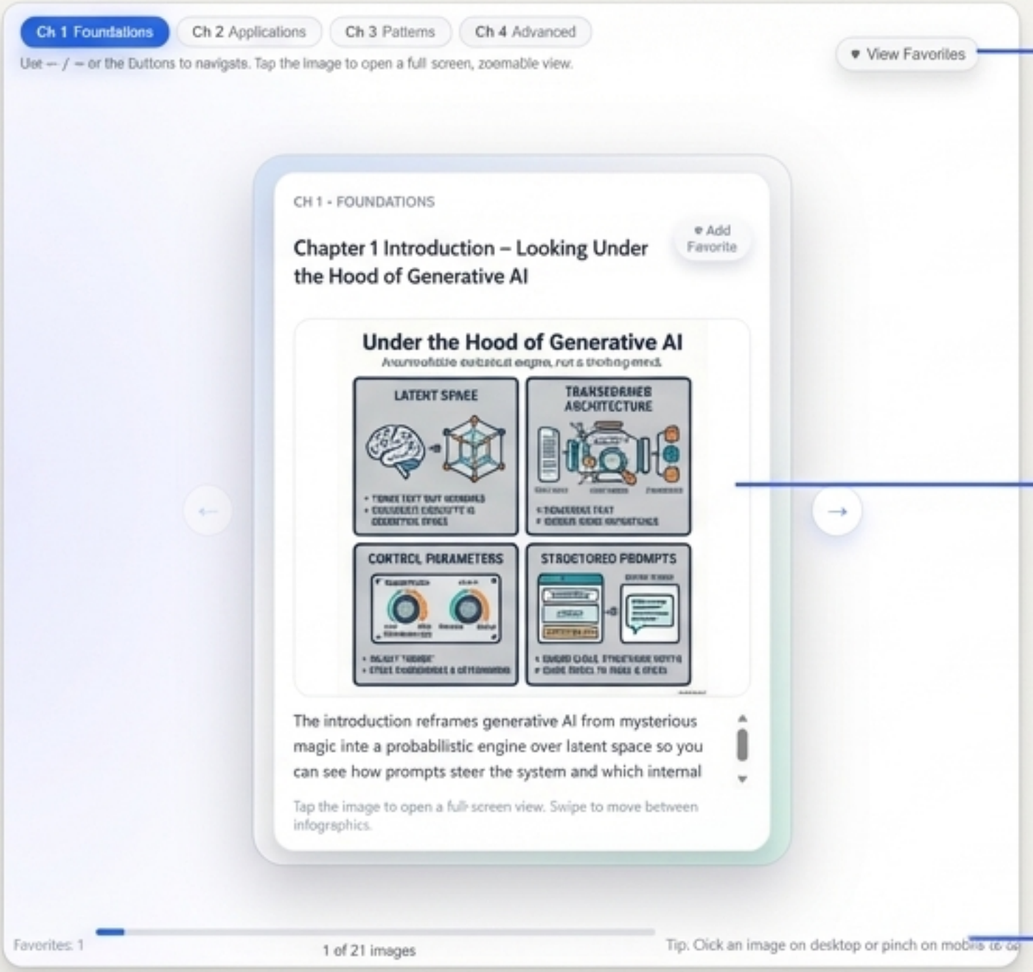
Your Visual Guide to Generative AI.

The Infographic Gallery is a mobile-first web app that runs entirely in your browser.

Browse with Ease: Explore key diagrams from Chapters 1–4.

Works Everywhere: Optimized for phones, tablets, and desktops.

Private & Offline: No logins or data sharing. Favorites are stored on your device, and it even works offline once loaded.



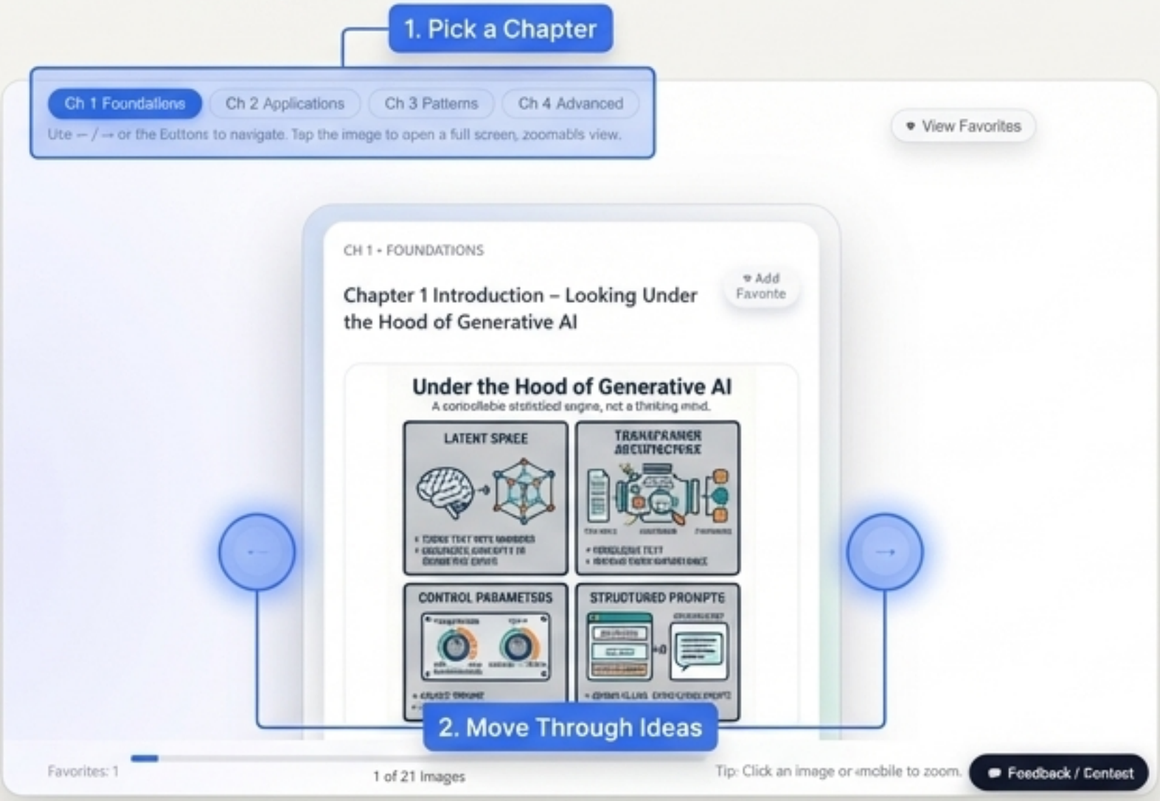
Top Bar

Center Card Area

Bottom Bar

NotebookLM

Navigate Complex Topics with a Tap or a Swipe.



1. Pick a Chapter

Use the tabs at the top (**Ch 1 – Foundations**, **Ch 2 – Applications**, etc.) to choose your topic. The active chapter is highlighted.

2. Move Through Ideas

- **Desktop**: Use the ← and → buttons or your keyboard's arrow keys.
- **Mobile**: **Swipe left** or **right** on the card.

NotebookLM

Every Detail, Crystal Clear.

Some infographics contain fine detail. To inspect them more closely, tap or click the image to open a full-screen, zoomable view.

- On **mobile**: Use pinch-to-zoom gestures.
- On **desktop**: Use your browser's native zoom.
- To **exit**: Tap the **'X'** button, the dark background, or press the **Esc** key.

Integrate Visuals into Your Learning Workflow

Use the gallery to make dense material easier to absorb and review.

Step 1: Prime

1

Prime Your Knowledge (Before Reading)

Swipe through a chapter's infographics to get a visual map of the key ideas.

Step 2: Consolidate

2

Consolidate (After Reading)

Return to the gallery and favorite the diagrams that capture the 'essence' of each section.

Step 3: Reinforce

3

Reinforce (For Review)

Use Favorites mode for a fast, powerful review of the entire topic.

NotebookLM

From Complex Text to Visual Command

You can now confidently navigate chapters, inspect diagrams, save favorites, and present visuals using the Infographic Gallery on any modern device.
