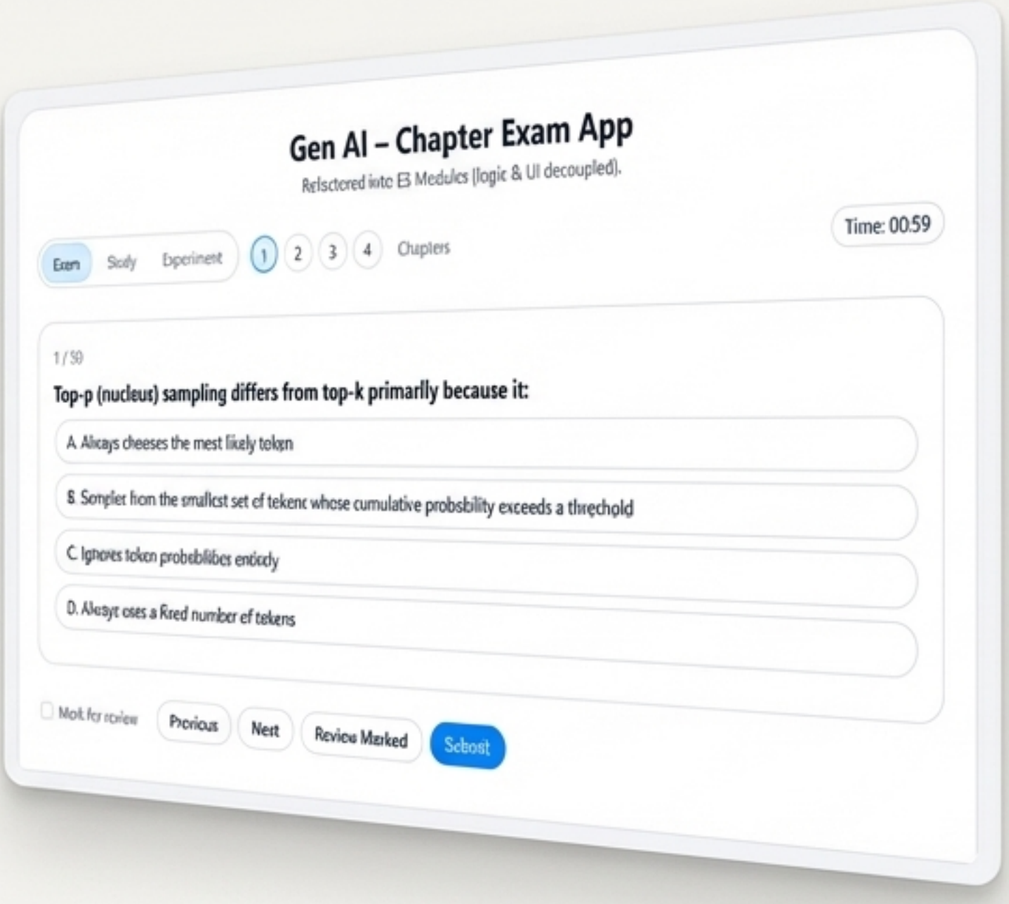
Master Your Subject: A Strategic Guide to the Gen AI Exam App

Go beyond simple practice. Use data-driven tools to test, learn, and conquer the material.



NotebookLM

Three Modes for Total Preparation

Different goals require different tools. This app provides three distinct modes, each tailored to a specific phase of your learning journey. Choose the mode that matches your immediate objective.

Exam Mode

Simulate the real test. Practice pacing, build endurance, and get a clean, unscored assessment of your knowledge.

Study Mode

Learn with instant feedback. Check your answers, read detailed explanations, and receive smart recommendations for your next session.

Experiment Mode

Create custom practice runs. Mix questions from multiple chapters and vary session sizes to explore the material your way.

NotebookLM

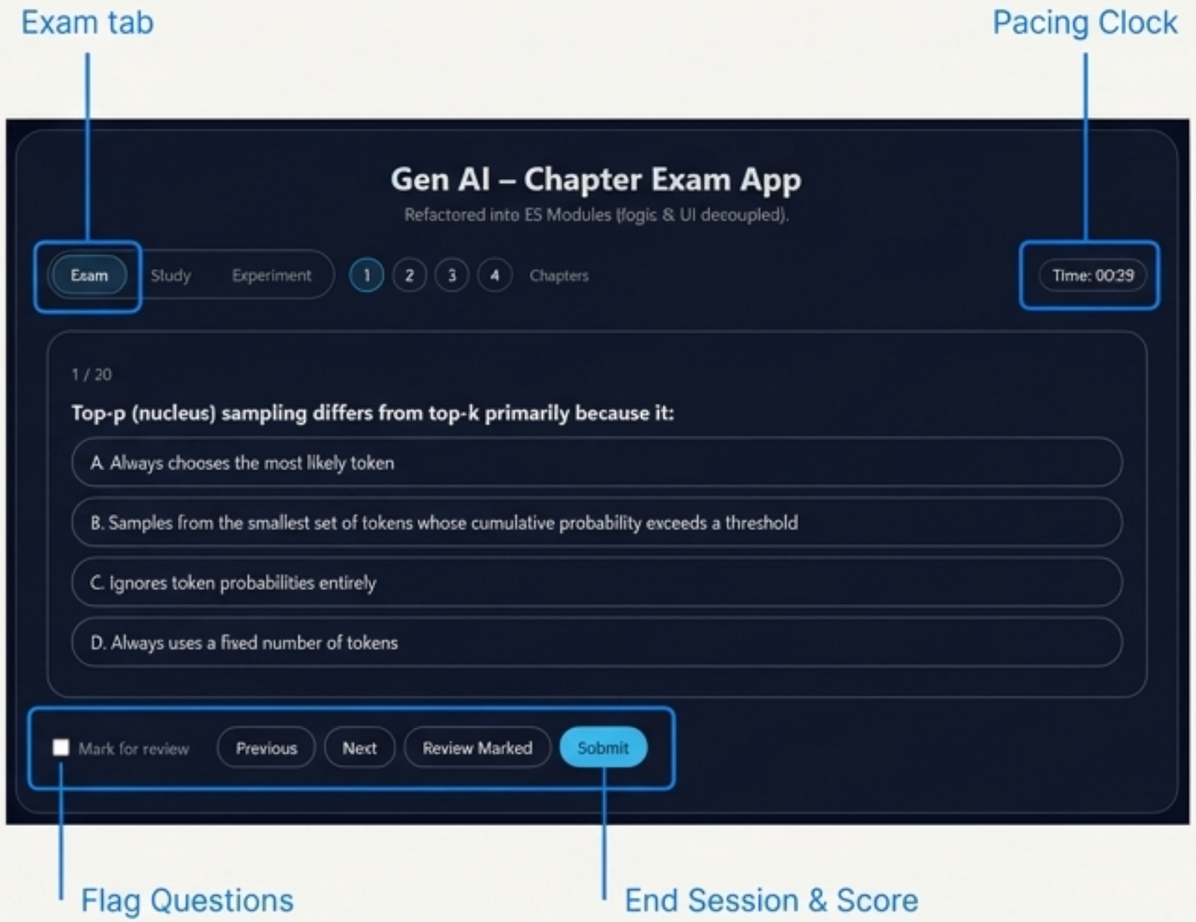
Test Your Mettle with Exam Mode

Build Endurance & Get a Clean Score

Exam mode is designed to feel like a real test environment. Use it when you need to focus on pacing and get an unbiased assessment of your performance without mid-exam feedback.

Key Behaviors:

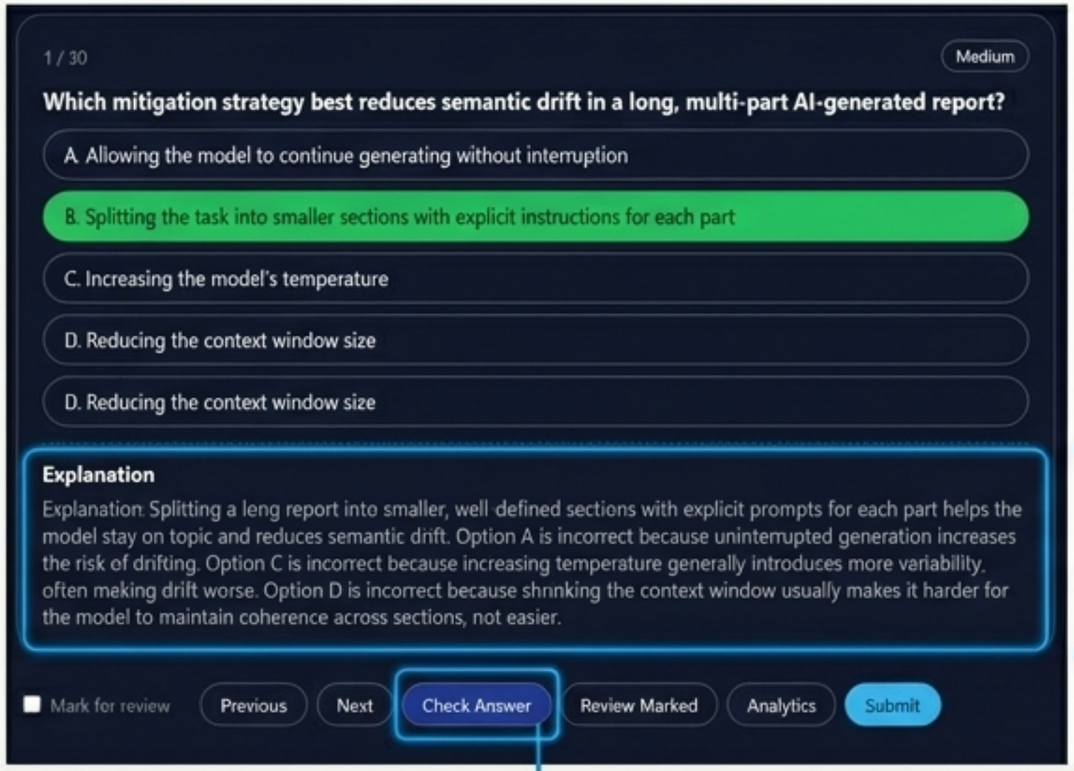
- Answer questions without seeing correctness or explanations until the end.
- Use **Mark for review** to flag questions you want to revisit.
- Use the **Review Marked** toggle to focus only on flagged questions before you submit.
- Click **Submit** to lock your answers, calculate your score, and update your analytics.



NotebookLM

Deepen Your Understanding in Study Mode

Learn Actively with Instant Feedback



Study mode is optimized for learning and clarifying concepts. Instead of waiting until the end, you get immediate feedback to learn from your mistakes and reinforce correct knowledge on the spot.

The Power of `Check Answer`:

- After selecting an option, click **Check Answer**.
- The app highlights the correct choice and reveals a detailed **Explanation panel** under the question.
- Click **Check Answer** again to hide the panel and continue practicing.

NotebookLM

Customize Your Practice in Experiment Mode

Mix, Match, and Explore

Experiment mode is for running controlled practice sessions. It gives you the power to go beyond single-chapter drills by combining topics and defining the length of your session.

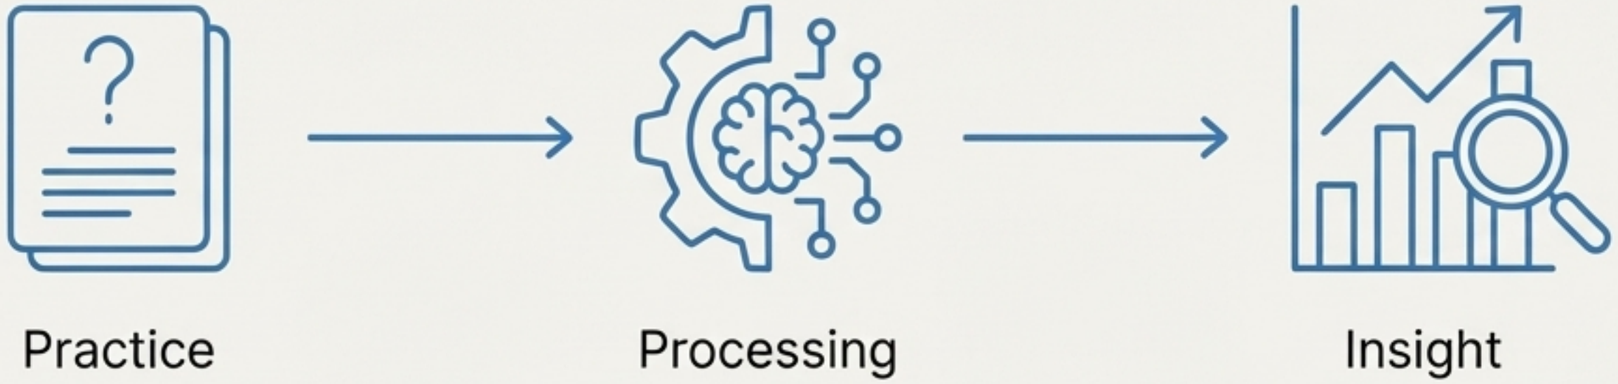
Use Experiment Mode to:

- Mix questions from several chapters into a single session.
- Try different session sizes (10, 20, or 30) to see how length influences accuracy.
- Explore custom configurations before committing to a full study plan.

NotebookLM

Beyond Practice: Turn Your Performance into Insight

Every session you submit does more than just give you a score. It feeds your personal analytics engine, transforming your work into a clear, actionable roadmap for improvement.

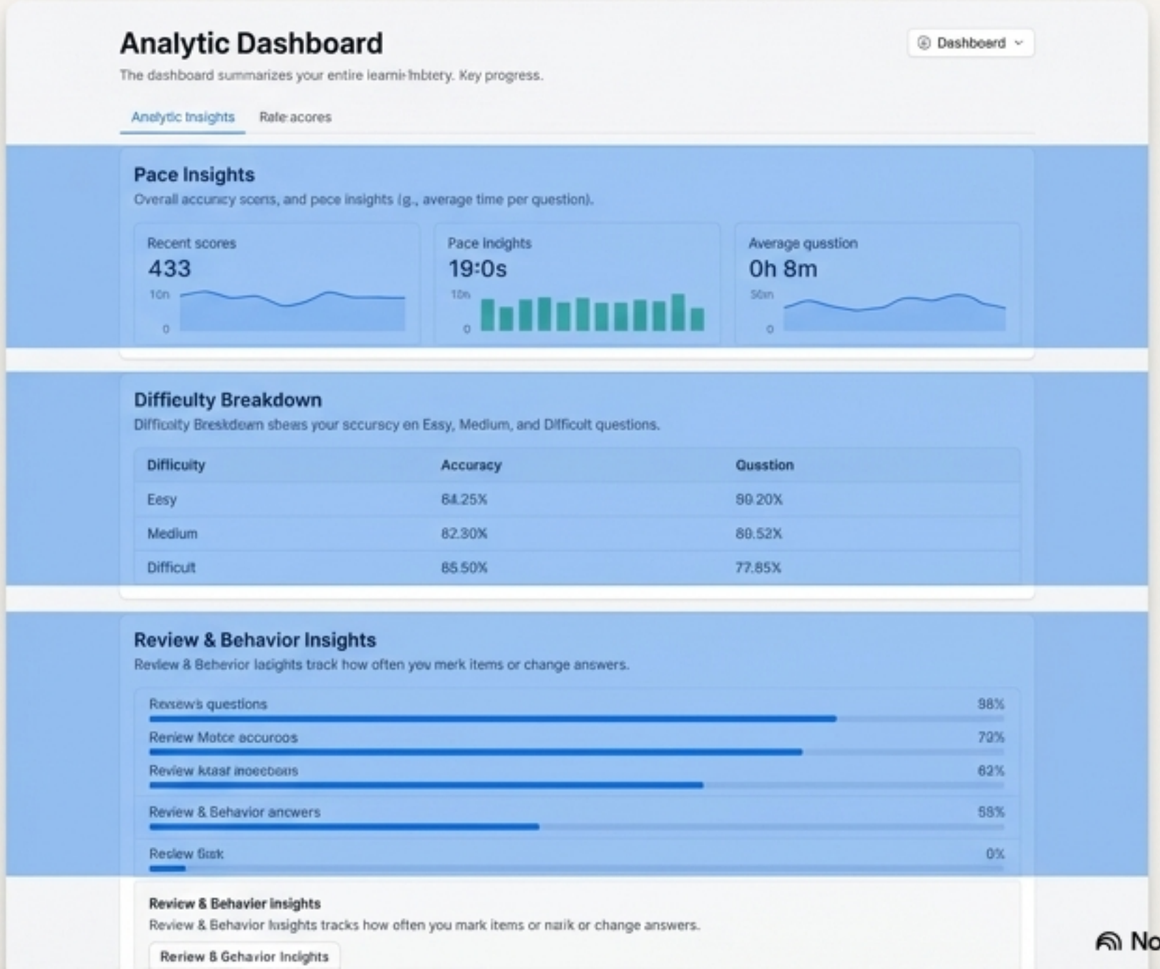


NotebookLM

Your Analytics Dashboard: A 360° View of Your Progress

The dashboard summarizes your entire learning history. Key insights are grouped to help you quickly identify strengths, weaknesses, and patterns in your study habits.

- **Performance Metrics:** Overall accuracy, recent scores, and pace insights (e.g., average time per question).
- **Weakness Identification:** Difficulty Breakdown shows your accuracy on Easy, Medium, and Difficult questions.
- **Behavior Patterns:** Review & Behavior Insights track how often you mark items or change answers.



NotebookLM

From Insight to Action: Goals & Recommendations

Your Personalized Roadmap to Success

The app doesn't just show you data; it interprets it for you. The Goals & Recommendations engine analyzes your performance and provides a specific, data-backed suggestion for your very next session.

Goals & Recommendations

- Overall accuracy target: 70%
- Difficulty goals – Easy: 80% · Medium: 70% · Difficult: 60%
- Streak goals – 5 day(s) in a row, 3 high-score session(s).
- Section focus – 1.3

Suggested next session: Study mode • Medium questions • Quick check.

- **Rationale:** Your overall accuracy is 7%, below your goal of 70%.
- You're below your target on Medium questions (6% vs goal 70%).
- Your current practice streak is 2 days; your goal is 5 days in a row. Short sessions can help build this streak.

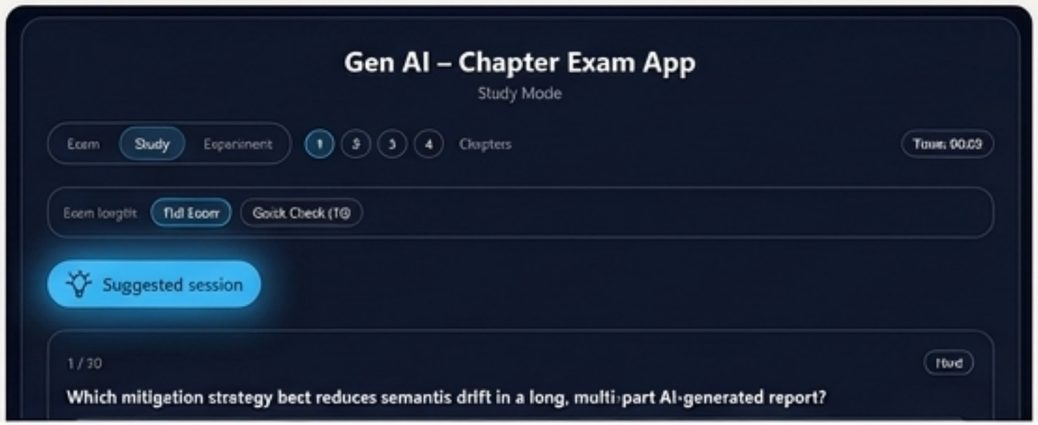
THE WHAT: Your next best step.

THE WHY: The data behind the advice.

NotebookLM

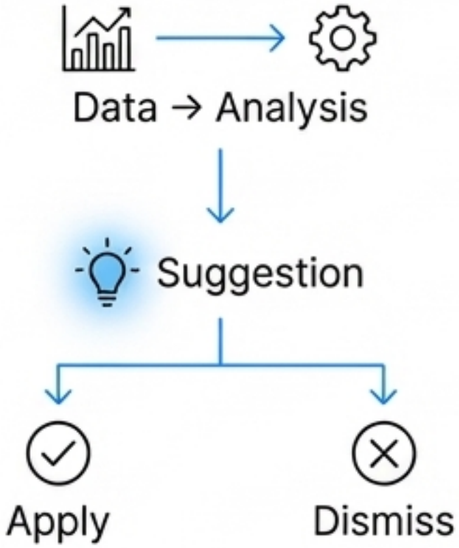
Let the App Guide Your Next Move

The Proactive `Suggested Session`



In Study mode, once the app has enough data, a small **Suggested session** pill may appear under the exam controls. This is your personal co-pilot offering a recommendation without you having to ask.

- Click the pill to open a card detailing the proposed session and its rationale.
- Click **Apply** to automatically update the controls and start the recommended session.
- Click **Dismiss** to ignore the suggestion for now. The same information remains available in the Analytics dashboard.



NotebookLM

Watch Your Knowledge Solidify Over Time

Track Your Mastery & Build Streaks

Success isn't just about one high score. The app helps you visualize your long-term growth and stay motivated.

Section Mastery: A detailed table tracks your accuracy for each topic, showing which are 'in progress' or 'mastered.' This is your guide for targeted review.

Session Timeline & Streaks: See your recent scores at a glance and track your current and best streaks for both daily practice and high-score sessions (≥ 70%).

Analytics Dashboard

Session Timeline & Streaks

Your most recent session score is **0%**. Your most recent session score is **10%**. ... over your last 10 sessions, it's **7%**.

- Streaks, your most recent **session score is 0%**.
- Streaks for both daily practice and 10 streaks is **7%**.
- Streaks for both **daily practice** and **high-score sessions** (≤ 70%).

Section Mastery

Section	Correct/Total	Accuracy	Mastery Status
Section 1: Collection	0 / 10	90%	High
Section 2: Evouation	6 / 10	90%	Mastery
Section 3: Coorparion	3 / 10	90%	Mastery
Section 4: Analysis	2 / 8	90%	Mastery
Section 5: Completement	3 / 10	90%	Mastery
Section 6: Envinonment	3 / 10	90%	Mastery
Section 7: Deveropment	3 / 10	90%	Mastery

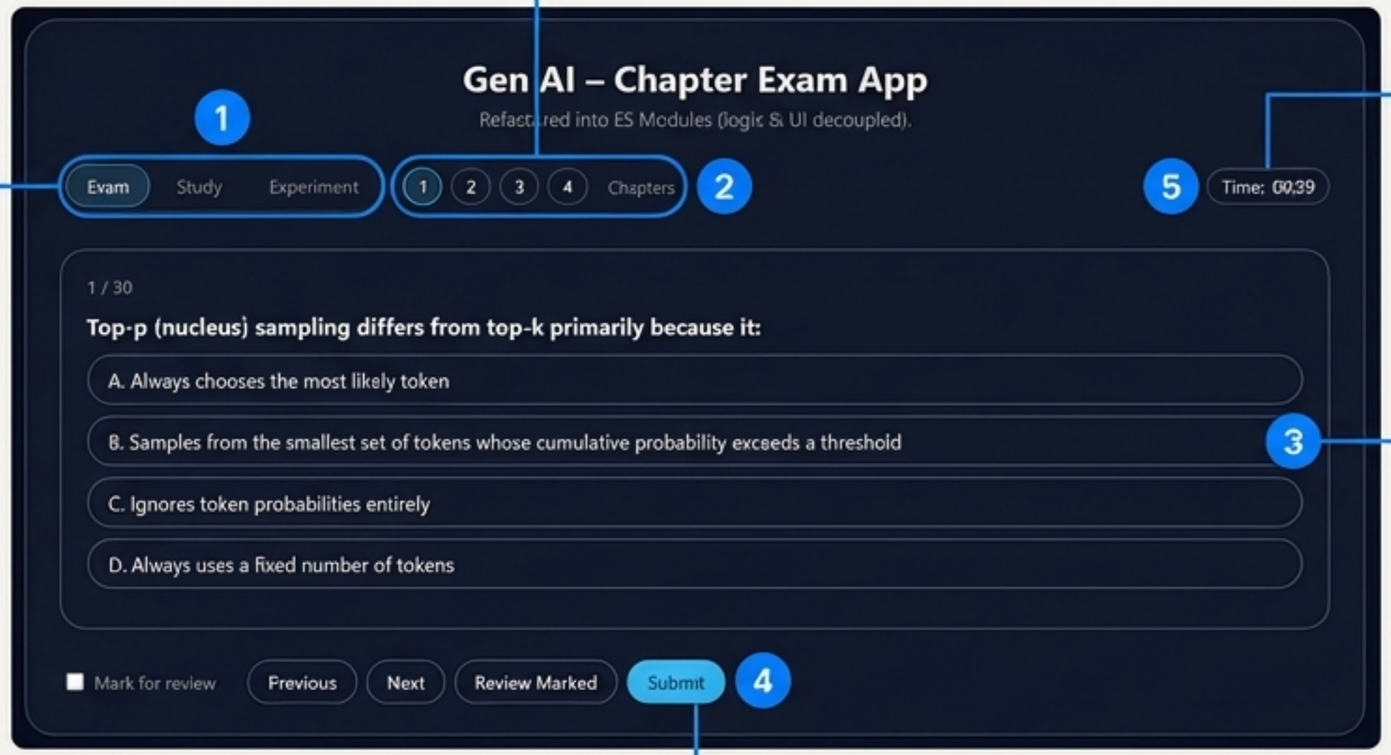
Anatomy of the Interface

Know Your Controls

Chapter Selector: Choose which chapter's question bank to use.

Mode Tabs: Switch between Exam, Study, and Experiment modes.



Timer: Tracks your elapsed time for the current session.

Question Card: Displays the question number, text, difficulty, and answer choices.

Footer Bar: Contains navigation (Previous/Next), tools (Mark for review, Check Answer), and session controls (Submit, Analytics).

NotebookLM

Get Started in 60 Seconds

Your First Practice Session

1. Choose Your Path

Select a **Mode** (e.g., Exam) and a **Chapter**.

2. Answer the Questions

Read the prompt and select an answer choice. Use **Next** and **Previous** to navigate.

3. Flag for Follow-Up

Check **Mark for review** on any questions you're unsure about.

4. Submit & Analyze

When you're done, click **Submit**, then open the **Analytics** dashboard to see your results.

NotebookLM

Test. Analyze. Improve. Master.

The Gen AI Exam App is more than a quiz bank; it's a complete learning system designed to give you a strategic advantage.

Flexible Practice

Choose the mode that fits your specific goal for any given study session.

Data-Driven Insight

Use your personal analytics to find and fix your weak spots with precision.

Guided Learning

Let smart recommendations optimize your study plan and guide you to success.
