

Gen AI Prompt Companion: User Guide

v0.3.0 (Phase 3)

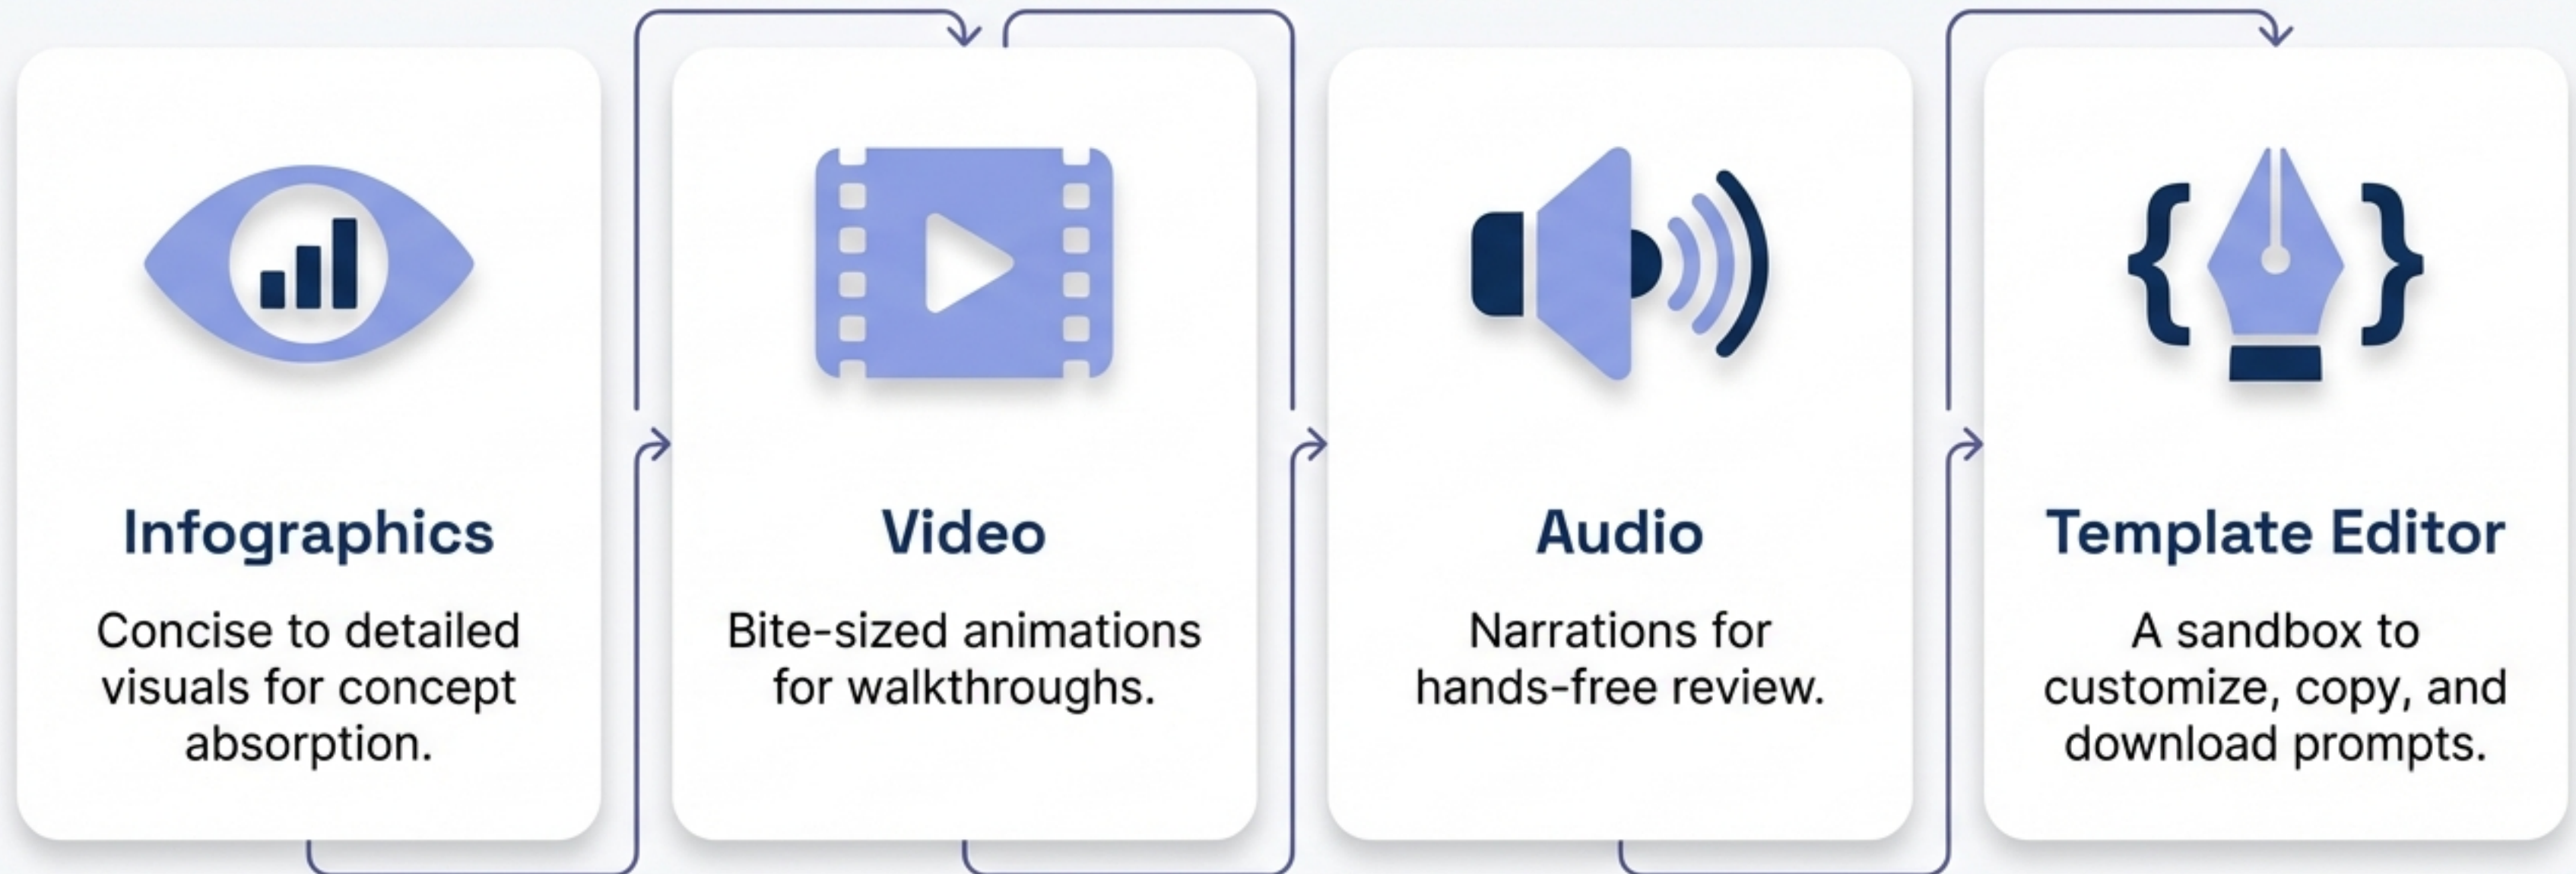

Master Prompt Engineering with Multimedia Learning

A comprehensive guide to navigating the interface, utilizing multimedia assets, and mastering the template editor.

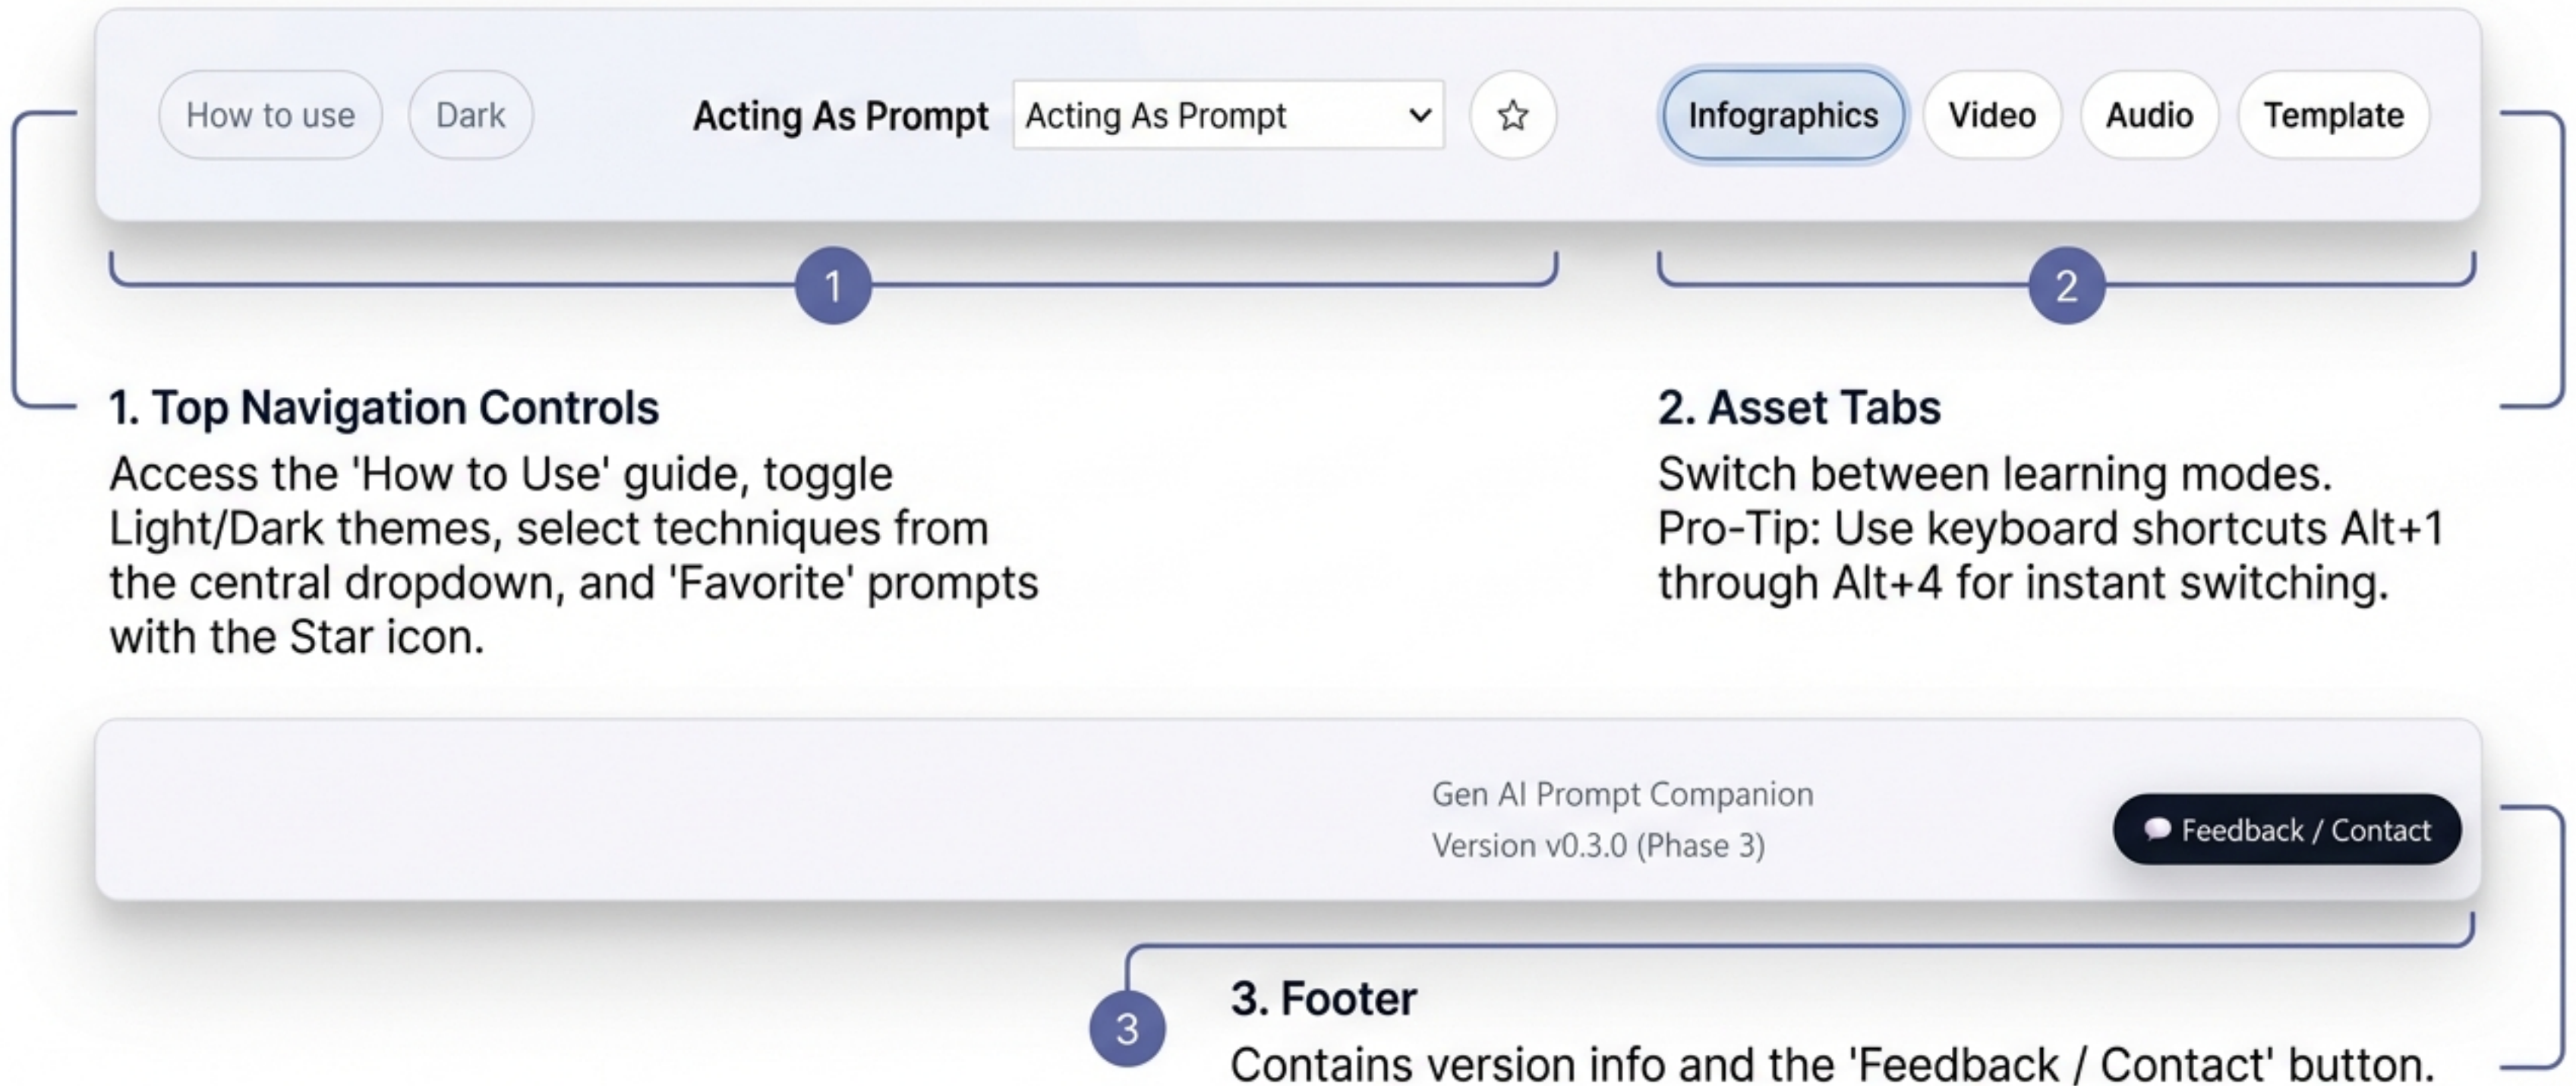

A Multimedia Ecosystem for Prompt Mastery

The Companion complements the eBook “The Generative AI Prompt Engineering – Learning Ecosystem” by centralizing resources into a fast-reference hub.

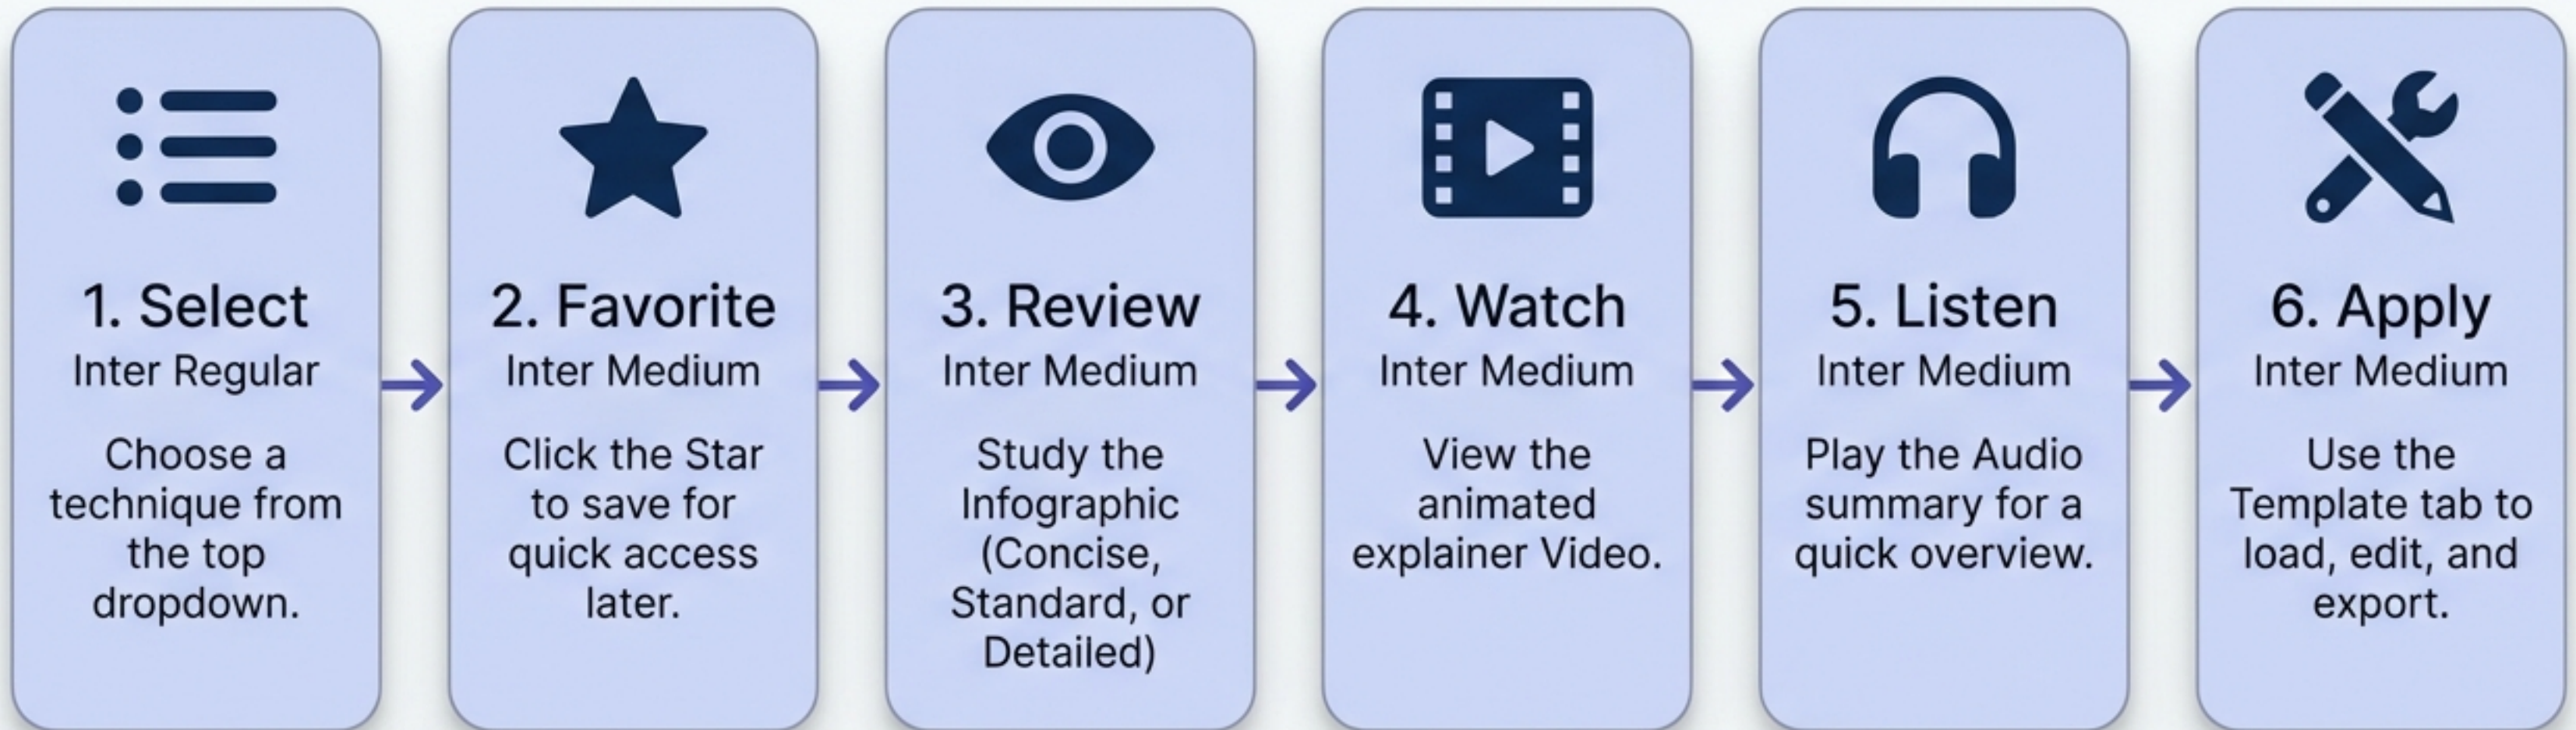

Value Proposition: Turn complex theories into actionable, bite-sized learning. Experiment and refine your own library of effective prompts.

Interface Anatomy & Navigation

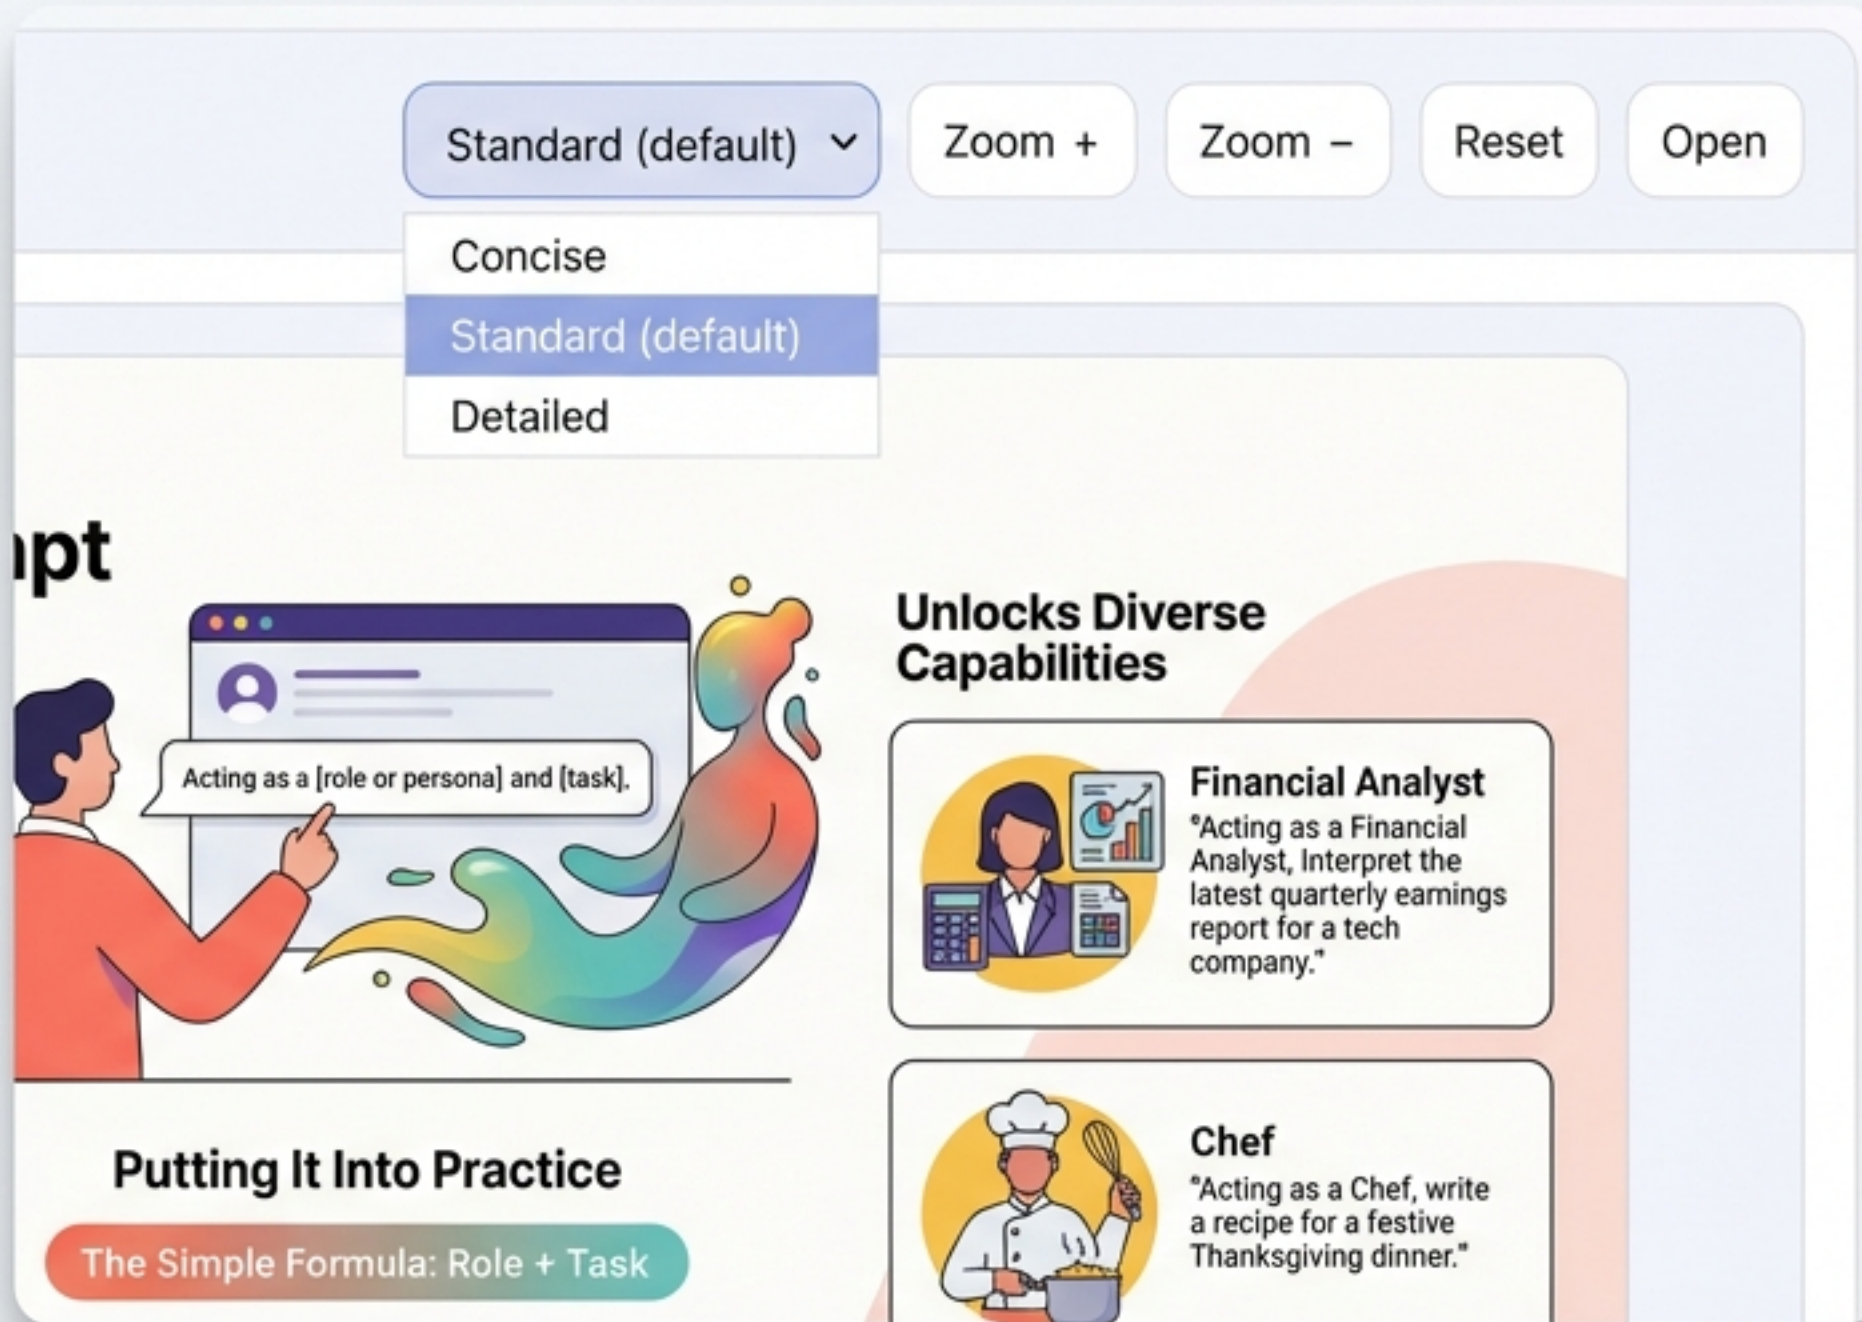

The Core Learning Workflow

in Space Grotesk Bold

Follow this path to move from theoretical understanding to practical application.

Feature Focus: Infographics

View Modes

- **Concise**: Quick summary (avoids scrollbars).
- **Standard**: The default view.
- **Detailed**: Deep dive into the technique.

Controls

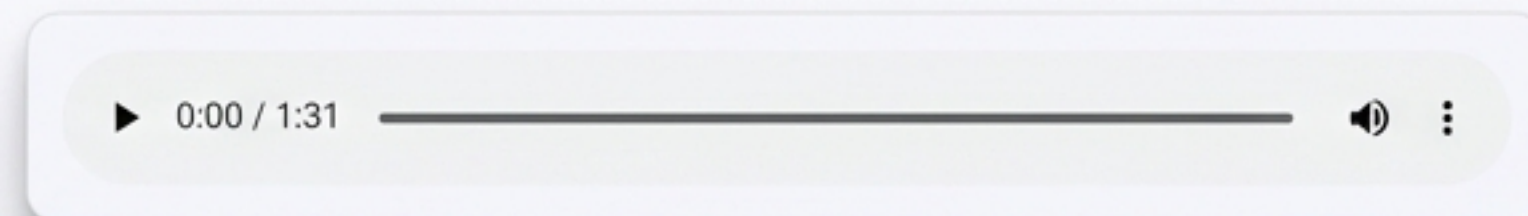

- **Zoom/Pan**: Use onscreen buttons or drag/pinch/Ctrl+wheel.
- **Reset**: Return to original scale.
- **Open**: Launches image in a new browser tab for distraction-free study.

Feature Focus: Video & Audio.

Video Capabilities.

Plays inline (no forced full-screen on iOS).
Includes Picture-in-Picture and standard playback speeds.

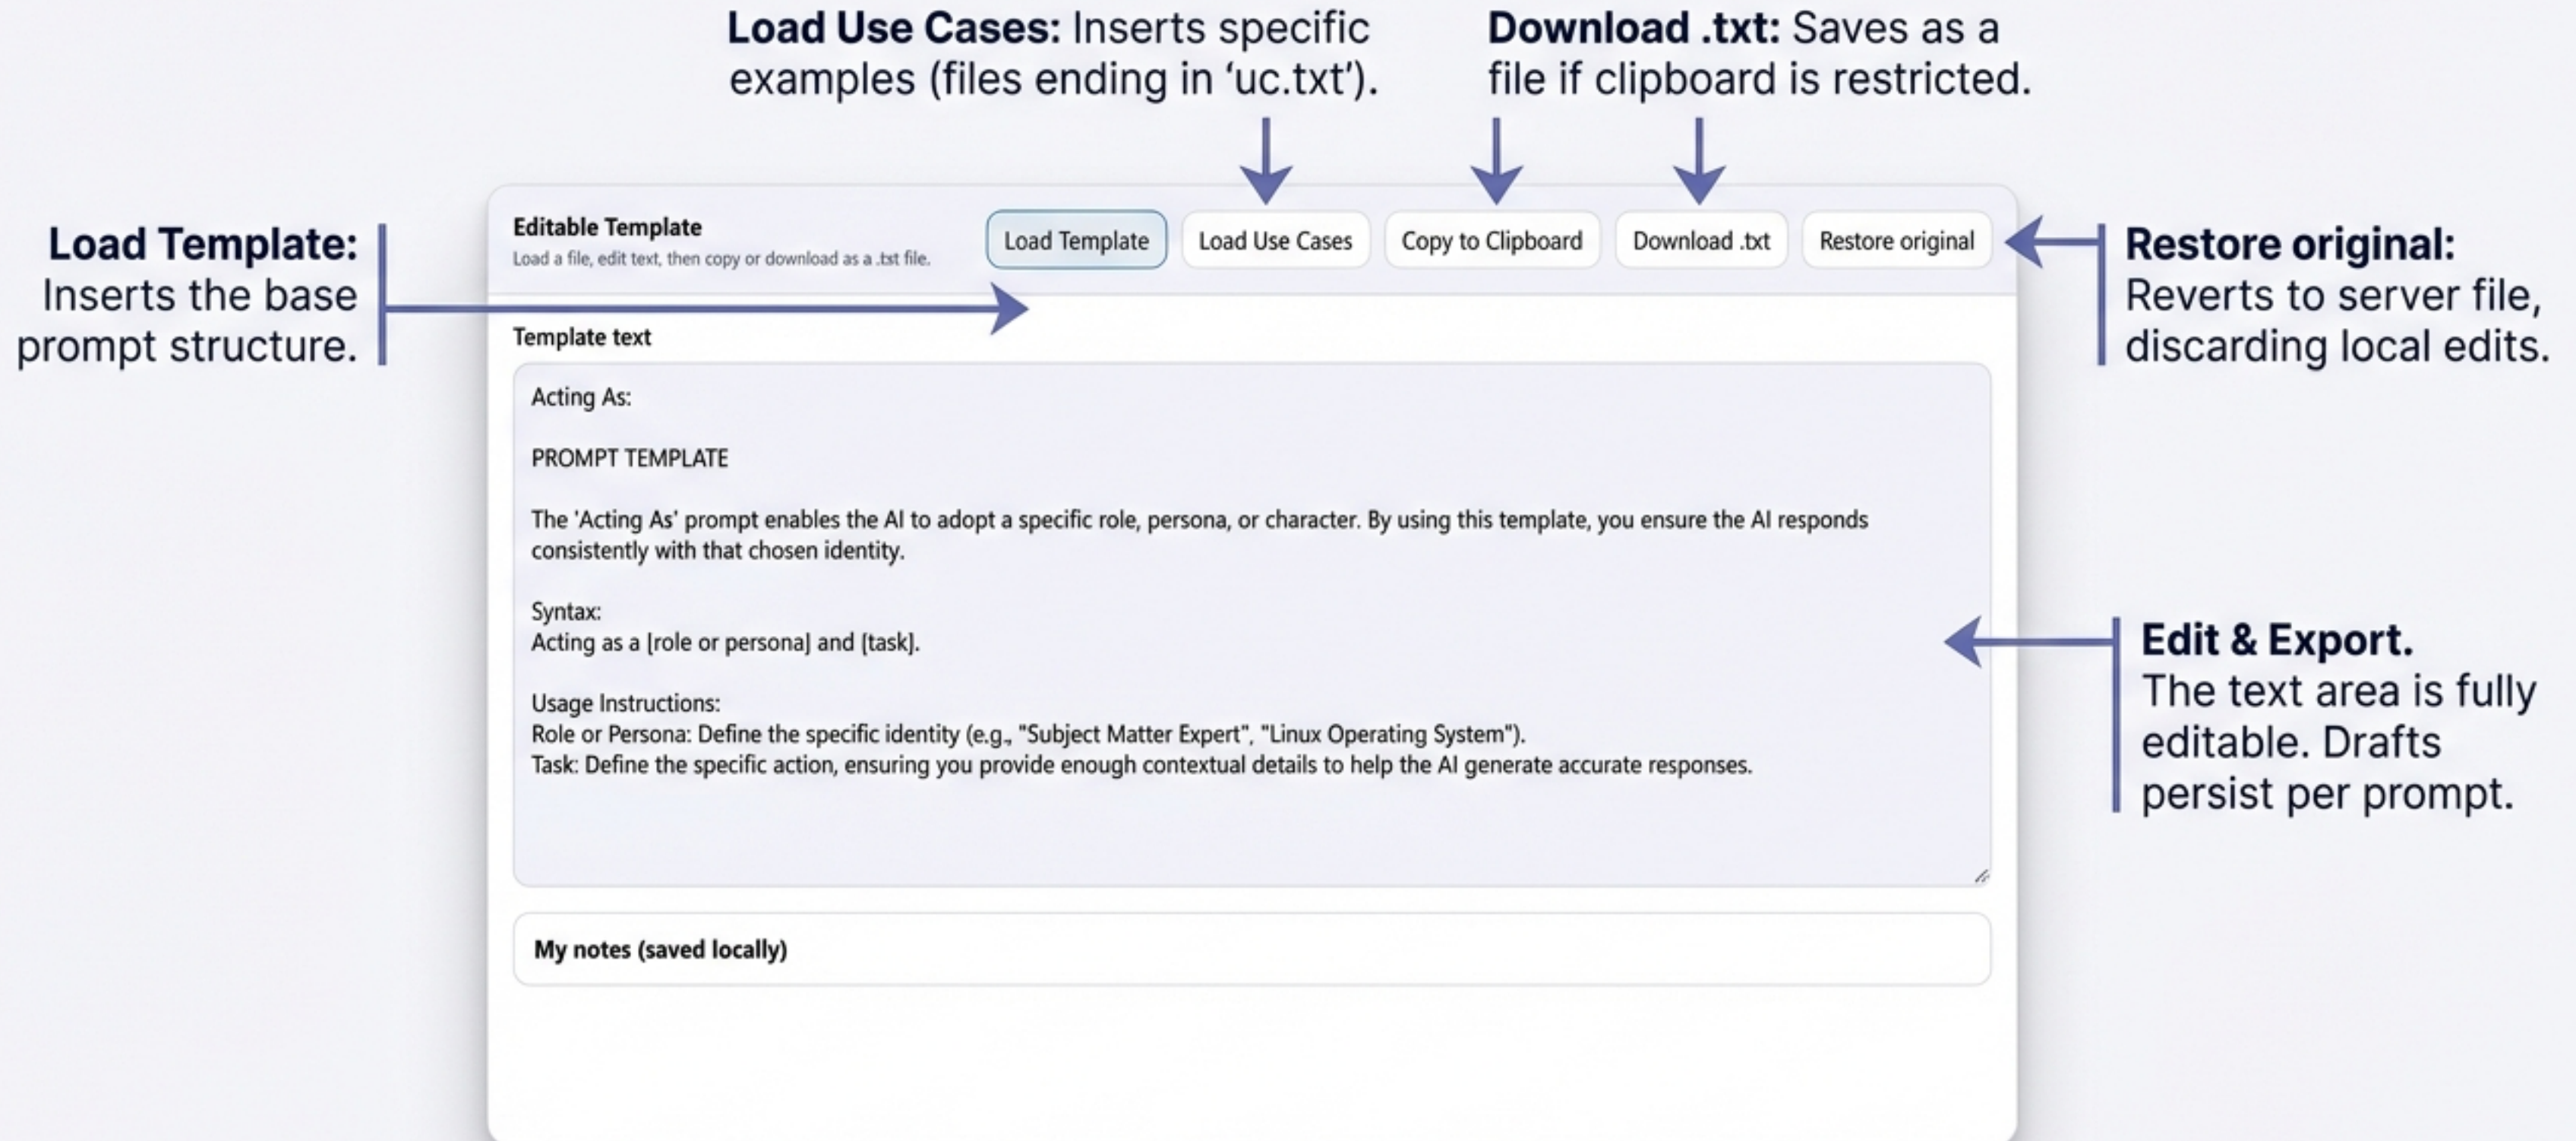

Audio Capabilities.

Designed for hands-free or quick review.

Pro-Tip: On many mobile devices, audio continues playing even when the screen is locked.

Feature Focus: The Template Editor.

Personalization & Local Storage.

Editable Template
Load a file, edit text, then copy or download as a .tst file.

Template text

Acting As:

PROMPT TEMPLATE

The "Acting As" prompt enables the AI to consistently with that chosen identity.

Syntax:

Acting as a [role or persona] and [task].

Usage Instructions:

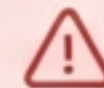

Role or Persona: Define the specific identity.

Task: Define the specific action, ensuring y

My notes (saved locally)

No Login Required. The app uses Local Storage to remember:

- **Favorites:** Starred prompts appear at the top.
- **Theme:** Your Light/Dark preference.
- **Drafts:** Edits to templates and use cases are saved per prompt.
- **Notes:** Personal observations saved in the collapsible "My notes" section.
- **History:** The last 12 viewed prompts.

Critical Warning: All data lives on your specific device. Clearing your browser's site data will wipe favorites, notes, and drafts.

Troubleshooting & FAQ

Common Fixes

- Copy to Clipboard fails?
→ Some browsers restrict this. Use 'Download .txt' instead.
- Media won't play?
→ Check internet/assets. Interact with the page to start.
- Infographic missing?
→ A placeholder image appears if the file is not configured.
- Open button does nothing?
→ Your browser is blocking pop-ups. Allow pop-ups for this site.

FAQ

- Can I add prompts?
→ No, it's a read-only curated library.
- Where are my notes?
→ Saved locally on your device. They do not sync across devices.
